

## TRACKING RELATED COLLEGE CREDIT on the EARLY CHILDHOOD CAREER LADDER

*College credits are one way to be recognized and move up the Early Childhood Career ladder*

### DIRECTIONS

- 1) List each *related* college course you have completed. College courses are *related* when the content directly relates to a Core Knowledge Area. *See the list of sample related courses.* Courses can be completed at any time.
- 2) List the number of credits for that course under the relevant Core Knowledge Area
- 3) Total the credits by Core Knowledge Area. Use the *Career Ladder* to determine your potential level on the Ladder (simplified below)

Level I	3-4 credits (one course)	a child development course
Level II	12 credits (4 courses)	2 core knowledge areas
Level III	21 credits (7 courses)	3 core knowledge areas
Level IV	30 credits (10 courses)	3 core knowledge areas

	Core Knowledge Area				
	Child Development	Families and Communities	Curriculum	Health and Safety	Professionalism and Program Organization
A) List each <b>Related college course</b> you have completed that meets ALL of these: <ul style="list-style-type: none"> <li><input type="checkbox"/> From an accredited institution</li> <li><input type="checkbox"/> Grade of C- or higher</li> <li><input type="checkbox"/> Relate to working with children ages 0-8</li> <li><input type="checkbox"/> Directly relates to a Core Knowledge Area</li> </ul>	Intro to Psych, Developmental Psych, Child Dev...	Intro to Sociology, Family Violence, Social Psych...	Early Intervention, teaching methods, children's lit., child assessment...	Intro to nutrition, healthy workplace, ...	Ethics, program management, small business management, supervision...
